The action filed 1/17/06 mistakenly contained the wrong action. Hence, this correct supplemental action:

Prosecution is reopened upon a finding of new art:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 34 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by Blount.

Blount teaches a composition comprising alkyl aryl sulfates or aryl alkyl sulfates (column 5 lines 5-60. Films comprising a resin (column 2 line 30) are specified (column 1 line 24).

Claim 39 is rejected under 35 U.S.C. 102(b) as being anticipated by Mortimer et al.

Mortimer et al teach dissolved methyl sulfate (column 6 line 24). A polymeric film is disclosed (column 6 line 20).

Claims 34 and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Destryker et al.

Destryker et al teach a composition comprising solution of aryl sulphates (claim 9). Films comprising latex are disclosed (abstract).

Claim 39 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The species "methyl" in claim 39 broadens rather than narrows claim 34.

No claims allowed.
